

# Chemically Prepared Toners - A Study of Markets and Technologies (Edition 6)

|  |           |
|--|-----------|
| <b>1. Overview .....</b>   | <b>9</b>  |
| <b>1.1 Production Growth of Full Color Chemically Prepared Toner.....</b>                                  | <b>10</b> |
| <b>1.2 Production Growth of Black Chemically Prepared Toner .....</b>                                      | <b>10</b> |
| <b>2. The Anatomy of a Toner – What is toner made of? .....</b>  | <b>12</b> |
| <b>2.1 What Toner Parameters Affect Which Part of the Process? .....</b>                                   | <b>12</b> |
| 2.1.1 Toner Composition .....  | 13        |
| 2.1.1.1 The Polymer or Toner Binder.....   | 15        |
| 2.1.1.2 The Colorant - Pigment or Dye .....  | 17        |
| 2.1.1.2.1 Black Toner Pigments .....   | 18        |
| 2.1.1.2.2 Colored Toner Pigments .....   | 19        |
| 2.1.1.2.3 Yellow Pigmented Toners .....  | 22        |
| 2.1.1.2.4 Iron Oxide Pigment / Magnetite.....  | 23        |
| 2.1.1.3 Internal Charge Control Agent .....  | 23        |
| 2.1.1.4 Surface Additives .....  | 26        |
| 2.1.1.4.1 Fumed Metal Oxides (Silica, Titanium Dioxide, Aluminum Oxide) .....                              | 27        |
| 2.1.1.5 Other Ingredients .....  | 30        |
| <b>3. Why Chemically Prepared Toner? .....</b>   | <b>32</b> |
| <b>3.1 What the Market Wants .....</b>   | <b>32</b> |
| <b>3.2 Toner Improvements .....</b>  | <b>33</b> |
| 3.2.1 The Need for Small Mean Particle Size .....  | 33        |
| 3.2.2 Why Does Conventional Toner Manufacturing Technology Have Difficulty in Achieving These Goals? ..... | 34        |
| 3.2.2.1 Energy Consumption.....  | 35        |
| <b>3.3 Toner Manufacturing Methods Compared .....</b>  | <b>38</b> |
| <b>3.4 What Improvements Can Chemically Prepared Toner Technology Offer? .....</b>                         | <b>39</b> |
| <b>3.5 The Chemically Prepared Toner Method Characteristics Compared.....</b>                              | <b>40</b> |
| <b>3.6 A little History .....</b>  | <b>42</b> |
| <b>3.7 Why So Long Before Commercialization? .....</b>   | <b>44</b> |
| <b>4. Chemically Prepared Toner Basics.....</b>  | <b>45</b> |
| <b>4.1 The Features of CPT technologies .....</b>  | <b>46</b> |
| 4.1.1 Small Mean Particle Size .....   | 47        |
| 4.1.2 Toner Particle Shape Control.....  | 51        |
| 4.1.2.1 Why is particle shape so important? .....  | 51        |
| 4.1.2.2 Flow Performance of Different Shaped Particles.....  | 53        |

|            |  |           |
|------------|--|-----------|
| 4.1.2.3    | Toner Shape Characteristics.....   | 55        |
| 4.1.2.4    | Electrostatic Performance of Different Shaped Particles.....                                   | 56        |
| 4.1.2.5    | Toner Adhesion.....  | 57        |
| 4.1.2.6    | Toner Particle Shape Control and Measurement.....  | 58        |
| 4.1.2.7    | Particle Shape Control in Chemically Prepared Toner Technologies.....                          | 61        |
| 4.1.2.8    | Combination of Affects of Toner Shape.....   | 61        |
| <b>4.2</b> | <b>Chemically Prepared Toner Technologies.....</b>   | <b>64</b> |
| 4.2.1      | Suspension Polymerization.....   | 64        |
| 4.2.1.1    | Suspension Toner Manufacture.....  | 65        |
| 4.2.2      | Emulsion Polymerization and Aggregation.....   | 68        |
| 4.2.3      | Polyester (Elongation) Polymerization (PxP).....   | 70        |
| 4.2.4      | Chemical Milling.....  | 71        |
| 4.2.5      | Microencapsulation.....  | 73        |
| 4.2.6      | Dispersion Polymerization.....   | 75        |
| 4.2.7      | Condensation Polymerization.....   | 75        |
| 4.2.8      | Other Alternative Toner Manufacturing Methods.....   | 76        |
| 4.2.9      | Washing/Isolation/Filtration/Drying and Blending.....  | 76        |
| 4.2.9.1    | Filter Press and Vacuum Dry.....   | 76        |
| 4.2.9.2    | Fluidized Bed Drying.....  | 78        |
| 4.2.10     | Pressure Filtration.....   | 78        |
| 4.2.11     | Conclusions.....   | 79        |
| <b>5.</b>  | <b>The Chemically Prepared Toner Market.....</b>   | <b>81</b> |
| <b>5.1</b> | <b>Overview of the Players.....</b>  | <b>81</b> |
| <b>5.2</b> | <b>Current Commercial Products.....</b>  | <b>82</b> |
| <b>5.3</b> | <b>The Chemical Toner Market.....</b>  | <b>83</b> |
| 5.3.1      | Worldwide toner production volume.....   | 84        |
| 5.3.1.1    | Overall production.....  | 84        |
| 5.3.1.2    | Chemically Prepared Black Toner.....   | 87        |
| 5.3.1.3    | Chemically Prepared Color Toner.....   | 88        |
| 5.3.2      | The Toner Binder Resin Market and the Affects of the Growth in Chemically Prepared Toners..... | 89        |
| 5.3.2.1    | Overview.....  | 89        |
| 5.3.2.2    | The Resin Manufacturers.....   | 89        |
| 5.3.2.2.1  | Sanyo Chemical Industries.....   | 89        |
| 5.3.2.2.2  | Fujikura Kasei.....  | 90        |
| 5.3.2.2.3  | Mitsui Chemical.....   | 90        |
| 5.3.2.2.4  | Mitsubishi Rayon.....  | 90        |

|            |                                  |    |
|------------|----------------------------------|----|
| 5.3.2.2.5  | Sekisui Chemical.....            | 91 |
| 5.3.2.2.6  | Dainippon Ink and Chemical ..... | 91 |
| 5.3.2.2.7  | Kao .....                        | 91 |
| 5.3.2.2.8  | Nippon Carbide Industries.....   | 91 |
| 5.3.2.2.9  | Zeon Corporation .....           | 91 |
| 5.3.2.2.10 | Nippon Ink Chemical.....         | 92 |

|            |   |            |
|------------|---|------------|
| <b>6.</b>  | <b>Review of the Manufacturers and Developers of Chemically Prepared Toners .....</b> | <b>93</b>  |
| <b>6.1</b> | <b>Canon.....</b>   | <b>93</b>  |
| 6.1.1      | Canon's R&D into chemically prepared toner .....                                      | 93         |
| 6.1.2      | Technology trends in Conventional toner.....  | 93         |
| 6.1.3      | Production locations .....  | 94         |
| 6.1.4      | Canon S Toner Technology .....  | 94         |
| 6.1.5      | Description Of The Process .....  | 96         |
| 6.1.5.1    | Canon Encapsulated Toner Manufacture .....  | 97         |
| 6.1.5.2    | Dispersion Stabilizer Preparation and Aqueous Dispersion Medium .....                 | 98         |
| 6.1.5.3    | Costing Data .....  | 99         |
| 6.1.5.3.1  | Magenta Canon S Toner Production Costing Estimate - Year 2004 .....                   | 101        |
| 6.1.5.3.2  | Black Canon S Toner Production Costing Estimate - Year 2004 .....                     | 104        |
| 6.1.5.4    | Capital Costs.....  | 107        |
| 6.1.5.5    | Throughput.....   | 107        |
| 6.1.5.6    | Chemically Prepared Toner Applications.....   | 107        |
| <b>6.2</b> | <b>Ricoh.....</b>   | <b>110</b> |
| 6.2.1      | Technology trends and developments .....  | 116        |
| 6.2.1.1    | Conventional Toner.....   | 116        |
| 6.2.1.2    | Production Locations.....   | 116        |
| <b>6.3</b> | <b>Xerox Corporation and Fuji Xerox .....</b>   | <b>117</b> |
| 6.3.1      | Xerox/Fuji Xerox Research and Development.....  | 117        |
| 6.3.2      | Overview of the Xerox/Fuji Xerox Technology .....                                     | 118        |
| 6.3.2.1    | Latex Formation .....   | 118        |
| 6.3.2.2    | Dispersion of Colorant and Internal Additives.....                                    | 118        |
| 6.3.2.3    | Aggregation .....   | 118        |
| 6.3.2.4    | Coalescence .....   | 119        |
| 6.3.2.5    | Washing, Filtration, Drying and Dry blending additives .....                          | 119        |
| 6.3.3      | Capabilities of Xerox/Fuji Xerox EA Technology.....                                   | 119        |
| 6.3.3.1    | High Print Quality .....  | 119        |
| 6.3.3.1.1  | Particle Size Distribution .....  | 119        |

|            |  |     |
|------------|--|-----|
| 6.3.3.1.2  | Small Mean Particle Size .....   | 121 |
| 6.3.3.1.3  | Toner Particle Shape .....   | 121 |
| 6.3.3.1.4  | Hollow Characters .....  | 123 |
| 6.3.3.1.5  | Particle Surface .....   | 123 |
| 6.3.3.2    | Low Contribution to Total Cost of Ownership .....  | 124 |
| 6.3.3.3    | Low Energy/Oilless Fixing .....  | 124 |
| 6.3.3.4    | Core Shell Structure .....   | 125 |
| 6.3.3.5    | Fuji Xerox Spherical Particle Section Diagram .....  | 127 |
| 6.3.4      | Fuji Xerox Manufacturing Process .....   | 128 |
| 6.3.4.1    | Manufacturing Procedure .....  | 130 |
| 6.3.4.1.1  | Latex Preparation .....  | 130 |
| 6.3.4.1.2  | Preparation of Latex 1 .....   | 130 |
| 6.3.4.1.3  | Preparation of Latex 2 .....   | 131 |
| 6.3.4.2    | Pigment Dispersion .....   | 132 |
| 6.3.4.2.1  | Black Pigment Dispersion .....   | 133 |
| 6.3.4.2.2  | Cyan Pigment Dispersion .....  | 133 |
| 6.3.4.2.3  | Yellow Pigment Dispersion .....  | 133 |
| 6.3.4.2.4  | Magenta Pigment Dispersion .....   | 133 |
| 6.3.4.3    | Wax Dispersion .....   | 134 |
| 6.3.4.4    | Aggregate Particle Preparation .....   | 134 |
| 6.3.4.5    | Coalescence or Adhered Particle Preparation .....  | 135 |
| 6.3.4.6    | Surface Treatment .....  | 135 |
| 6.3.4.7    | Surface Additive Blending .....  | 136 |
| 6.3.5      | Fuji Xerox Magenta Toner Production Costing Estimate - Year 2004 .....                             | 137 |
| 6.3.6      | Fuji Xerox Black Toner Production Costing Estimate - Year 2004 .....                               | 143 |
| 6.3.7      | Product and Performance .....  | 149 |
| 6.3.8      | Fuji Xerox Manufacturing Operations .....  | 151 |
| 6.3.8.1    | Environmentally Friendly Manufacturing and Usage .....   | 153 |
| 6.3.9      | Current Applications of EA Technology .....  | 155 |
| 6.3.9.1    | Fuji Xerox Toner for the DCC500 and DCC400/320 .....   | 155 |
| 6.3.10     | Description of the Nippon Carbide Manufacturing Process .....                                      | 157 |
| 6.3.10.1   | Monomer Mixture Preparation .....  | 159 |
| 6.3.10.1.1 | Aqueous Medium Preparation .....   | 159 |
| 6.3.10.1.2 | Secondary Particle Formation .....   | 160 |
| 6.3.10.1.3 | Associated Particle Formation .....  | 160 |
| 6.3.11     | Fuji Xerox (Nippon Carbide) Non-Magnetic Black Toner Production Costing Estimate - Year 2004 ..... | 161 |

|            |  |            |
|------------|--|------------|
| 6.3.12     | Fuji Xerox (Nippon Carbide) Magenta Toner Production Costing Estimate - Year 2004  | 164        |
| 6.3.13     | Fuji Xerox (Nippon Carbide) Magnetic Toner Production Costing Estimate - Year 2004 | 167        |
| <b>6.4</b> | <b>Konica Minolta</b>  | <b>170</b> |
| 6.4.1      | R&D into chemically prepared toner   | 170        |
| 6.4.2      | Printed Results  | 172        |
| 6.4.3      | Product Applications   | 173        |
| 6.4.3.1    | Konica 7035 and 7165   | 173        |
| 6.4.3.2    | Minolta DiAlta Di650   | 173        |
| 6.4.4      | Outlook for chemically prepared toner and future business                          | 174        |
| 6.4.5      | Production locations   | 174        |
| <b>6.5</b> | <b>Avecia</b>  | <b>175</b> |
|            | <b>Zeon Corporation</b>  | <b>178</b> |
| 6.5.1      | Production   | 179        |
| 6.5.2      | Production Locations   | 179        |
| 6.5.3      | Single Layer Manufacturing Technology  | 179        |
| 6.5.3.1    | Description Of The Process   | 179        |
| 6.5.3.2    | Monomer Mixture Preparation Part A   | 180        |
| 6.5.3.3    | Aqueous Medium Preparation Part B  | 181        |
| 6.5.3.4    | Aqueous Medium Preparation Part C  | 182        |
| 6.5.3.5    | Preparation of Colloidal Magnesium Hydroxide                                       | 182        |
| 6.5.3.6    | Primary Particle Formation   | 182        |
| 6.5.3.7    | Secondary Particle Formation   | 182        |
| 6.5.3.8    | Polymerization   | 183        |
| 6.5.4      | Colored Toner Developments   | 185        |
| 6.5.5      | Costing Data   | 185        |
| 6.5.5.1    | Capital Costs  | 185        |
| 6.5.5.2    | Throughput   | 185        |
| 6.5.5.3    | Zeon Corporation Non-Magnetic Black Toner Production Costing Estimate - Year 2004  | 186        |
| 6.5.5.4    | Zeon Corporation Magnetic Black Toner Production Costing Estimate - Year 2004      | 189        |
| 6.5.6      | Micro-encapsulated Type Toners   | 192        |
| 6.5.6.1    | Microencapsulated Toner Properties   | 193        |
| 6.5.6.1.1  | Hot offset characteristic  | 196        |
| 6.5.6.1.2  | Dependency of fixing ratio on pressure   | 197        |

|            |  |            |
|------------|--|------------|
| 6.5.6.1.3  | Carbon Black Dispersion in Toner Particles .....   | 198        |
| 6.5.6.1.4  | Particle Size Distribution .....   | 198        |
| 6.5.6.1.5  | Toner Flowability .....  | 199        |
| 6.5.6.1.6  | Transfer Ratio of Toner .....  | 199        |
| 6.5.6.1.7  | Printed Image Quality.....   | 200        |
| 6.5.7      | Conclusions .....  | 201        |
| <b>6.6</b> | <b>DPI Solutions, Inc. ....</b>  | <b>203</b> |
| 6.6.1      | Introduction.....  | 203        |
| 6.6.2      | General Description of CM Process .....  | 203        |
| 6.6.3      | Polyester base resin .....   | 204        |
| 6.6.4      | Particle formation by chemical milling .....   | 204        |
| 6.6.5      | Coloring of polyester particles .....  | 205        |
| 6.6.6      | Toner production Process .....   | 205        |
| 6.6.7      | Chemically Milled Toner (CM toner).....  | 206        |
| 6.6.8      | Color Gamut .....  | 206        |
| 6.6.9      | Particle Surface Texture and Charging Behavior.....  | 208        |
| 6.6.10     | Summary .....  | 209        |
| <b>6.7</b> | <b>Sinonar .....</b>   | <b>210</b> |
| 6.7.1      | Process details .....  | 210        |
| 6.7.2      | Process parameters .....   | 213        |
| 6.7.2.1    | Agitation Speed .....  | 213        |
| 6.7.2.2    | Viscosity of the Aqueous Non-Solvent Phase.....  | 213        |
| 6.7.2.3    | Effects of Zinc Stearate Stabilizing Agent for Phase Separation on Particle Size<br>Distribution ..... | 214        |
| <b>6.8</b> | <b>The Other Companies .....</b>   | <b>218</b> |
| 6.8.1      | Kyocera Mita.....  | 218        |
| 6.8.1.1    | Chemically Prepared Toner R&D.....   | 218        |
| 6.8.2      | Kyocera .....  | 218        |
| 6.8.2.1    | R&D Into Chemically Prepared Toner.....  | 218        |
| 6.8.3      | Sharp .....  | 219        |
| 6.8.4      | Toshiba TEC.....   | 219        |
| 6.8.4.1    | R&D Into Chemically Prepared Toner.....  | 219        |
| 6.8.5      | Matsushita .....   | 219        |
| 6.8.6      | Tomoegawa.....   | 220        |
| 6.8.6.1    | R&D Into Chemically Prepared Toner.....  | 220        |
| 6.8.6.2    | Production Locations.....  | 220        |
| 6.8.7      | Mitsubishi Chemical .....  | 220        |

|             |   |            |
|-------------|---|------------|
| 6.8.7.1     | Production Locations.....                                       | 221        |
| 6.8.8       | Dainippon Ink and Chemical .....                                | 221        |
| 6.8.8.1     | Production Locations.....                                       | 221        |
| 6.8.9       | Kao .....   | 221        |
| 6.8.9.1     | R&D Into Chemically Prepared Toner.....                         | 222        |
| 6.8.9.2     | Production Locations.....                                       | 222        |
| 6.8.10      | Toyo Ink.....   | 222        |
| 6.8.11      | Tokyo Printing Ink.....   | 222        |
| 6.8.11.1    | Production Locations.....                                       | 222        |
| 6.8.12      | FDK (Fuji Denka Kogyo) .....                                    | 223        |
| 6.8.12.1    | R&D Into Chemically Prepared Toner.....                         | 223        |
| 6.8.12.2    | Production Locations.....                                       | 223        |
| 6.8.13      | Hitachi Metals .....  | 223        |
| 6.8.13.1    | Product R&D Details: .....                                      | 223        |
| 6.8.14      | Hitachi Chemical .....  | 223        |
| 6.8.14.1    | Production Locations.....                                       | 223        |
| 6.8.15      | Sakata Inks.....  | 223        |
| 6.8.15.1    | Production Locations.....                                       | 224        |
| 6.8.16      | Imex.....   | 224        |
| 6.8.16.1    | Production Locations.....                                       | 224        |
| 6.8.17      | Nippon Shokubai .....   | 224        |
| 6.8.18      | Toshiba Chemical.....   | 224        |
| <b>7.</b>   | <b>Polymerization Technology Primer.....</b>                    | <b>225</b> |
| <b>7.1</b>  | <b>Polymers.....</b>  | <b>225</b> |
| <b>7.2</b>  | <b>Definitions .....</b>  | <b>225</b> |
| <b>7.3</b>  | <b>Physical Properties of Polymers.....</b>                     | <b>226</b> |
| <b>7.4</b>  | <b>Addition Polymers compared to Condensation Polymers.....</b> | <b>228</b> |
| <b>7.5</b>  | <b>Condensation Polymerization .....</b>                        | <b>228</b> |
| <b>7.6</b>  | <b>Addition Polymerization .....</b>                            | <b>228</b> |
| <b>7.7</b>  | <b>The Polymerization Process.....</b>                          | <b>228</b> |
| <b>7.8</b>  | <b>Chain polymerization polymers .....</b>                      | <b>229</b> |
| <b>7.9</b>  | <b>Chain polymerization polymers .....</b>                      | <b>229</b> |
| <b>7.10</b> | <b>Chemistry Free Radical Polymerization .....</b>              | <b>229</b> |
| 7.10.1      | Initiators .....  | 230        |
| 7.10.2      | Molecular weight control.....                                   | 231        |
| 7.10.3      | Temperature.....  | 231        |
| 7.10.4      | Concentration of Initiator .....                                | 231        |

|             |  |            |
|-------------|--|------------|
| 7.10.5      | Type of Initiator.....   | 232        |
| <b>7.11</b> | <b>Bulk Polymerization.....</b>                                      | <b>232</b> |
| <b>7.12</b> | <b>Solution Polymerization .....</b>                                 | <b>233</b> |
| <b>7.13</b> | <b>Suspension Polymerization .....</b>                               | <b>234</b> |
| <b>7.14</b> | <b>Emulsion Polymerization .....</b>                                 | <b>235</b> |
| <b>7.15</b> | <b>Patents Related to Chemically Prepared Toners 1996 –2004.....</b> | <b>239</b> |
